

KNOWLEDGE OF NON-EUROPEAN CIVILIZATIONS

You will study the historical events, socioeconomic conditions, political institutions, socio-cultural and ideological attitudes that have marked various time periods throughout the history of non-European civilizations.

You will examine historical events, cultural developments, and social and family structures. You will be encouraged to use critical-thinking and problem-solving skills to evaluate the achievements of civilizations in the fields of political governance, science, technology, and the arts.

Learning by doing / Semi-guided autonomy / Collaborative skills / Creativity and genuine curiosity / Thinking outside of the box / Freedom / Positive attitude / Open-mindedness and free-thinking / Non-judgmental attitude
