

POLICY FOR STUDENTS WHOSE TAX RESIDENCE IS IN THE EUROPEAN ECONOMIC AREA

TUITION FEES FOR EU COUNTRIES + NORWAY, ICELAND, LIECHTENSTEIN

This document concerns students entering the Sciences Po regular undergraduate and master's degrees and excludes distance learning students and certain specific agreements. For more information, please contact the school.

Please note that **nationality is not taken into consideration** in the tuition fee calculation.

Tuition fees are calculated according to household income.

The student is responsible for providing all the information necessary to establish their **European Economic Area** status (i.e., all EU countries + Norway, Iceland, Liechtenstein).

Reminder: Students eligible for automatic exoneration do not need to provide these documents.
[Refer to article number 6.](#)

Definition of terms used in this policy:

In order to calculate the 2025-2026 tuition fees, you must first determine your **family unit** and secondly **the income** to be declared.

How to determine the Family Unit?

Tuition fees are determined by the size of the family unit in "shares". In a family, the mother and father count for one share each. The children of the family count for a half share each for the first two children and for one share for the following children.

	Number of shares	Total shares
Parent N°1	1	1
Parent N°2	1	2
Child N°1	0.5	2.5
Child N°2	0.5	3
Child N°3	1	4
Child N°4	1	5
Each additional child	+1	5+1+...

Thus, a married couple with three children constitutes 4 shares. The family coefficient ("quotient familial") is the overall income divided by the number of shares and tuition fees are assessed according to this family coefficient.

Which income is included ?

The household income for the calculation of tuition fees is:

- The income of all members of the family unit as defined above ("How to determine the Family Unit?").
- The annual income of the tax year Y-2, meaning 2 years before.

In **specific situations**, the **family's overall income also** includes:

- Business income (trade or business -professional services - agricultural –partnerships-income)
- Employment income (salary - benefits in kind - pension income - director's remuneration)
- Investment income (dividends - fixed return investment income including income derived from bonds and debentures, treasury and loan notes, capitalization contracts, life insurance policies, negotiable debt instruments, as well as bank deposits.)
- Income from immovable property and tangible movable property
- Income from royalties (royalties relating to intellectual property rights such as patents, trademarks, technical processes and know-how)
- Short and long-term gains
- Immovable property gains
- Other income such as alimony, annuities,
- Etc.

How to proceed?

Every student must provide detailed tax returns showing the taxable household income by adding the various types of income received during the Y-2 tax year from their family unit. Both parents, even if separated, must provide their taxable household income.

Students must provide:

- The Y-2 tax returns of each member of the family unit translated into English or French (by the student).
- For employment income: an employer's certificate indicating the annual income in Y-2 translated into English or French (by the student).

What kind of evidence?

Germany - Austria - Belgium - Bulgaria - Cyprus - Croatia - Denmark - Spain - Estonia - Finland - Greece - Hungary - Ireland - Iceland - Italy - Latvia - Liechtenstein - Lithuania - Luxembourg - Malta - Norway - Netherlands - Poland - Portugal - Czech Republic - Romania - Slovakia - Slovenia - Sweden

- You must submit all tax returns with complete information about reported income: salaries, real estate income, etc. All documents must be provided with their translation.
- If your parents are divorced or separated, please submit supporting documents for the new family unit of each parent.
- You must specify the number of siblings living at home.
- If a family member receives alimony, you must provide a statement indicating the name of the beneficiary, as well as the amount and the type of alimony.

- Y-2 tax income is the income received two years ago. For example, for the academic year 2025/2026, the tax income is calculated in 2024 on the income received in 2023.
- For the exchange rate, the rate taken into account is that of the end of the fiscal year Y-2, (Bank of France rate).

Country	Supporting documents* (original document + translation into English or French)
Germany	"Bescheid 2023 über Einkommensteuer" of both parents or "Lohnsteuerkarte"
Austria	For employees: "Lohnzettel Â fur 2023" of both parents For the self-employed: "Einkommenssteuerbescheid Â fur 2023 or Einkommensteuerberechnung fur 2023" of both parents For retirees: "Pensionsversicherungsanstalt fur 2023" + copy of family book and enrollment certificate for all the children + translation
Belgium (Flemish)	"Aanslagbiljet Personenbelasting en aanvullende belastigen (Inkomstenjaar 2023)" of both parents.
